SPECIALIST

AMPUTEE

SERVICES

For *effective* training

CREATION OF A MORE REALISTIC CASUALTY SIMULATION

Enhances training packages and prepares personnel for traumatic catastrophic injuries by

- Eliminating the **SHOCK** factor
- Improving Reaction Time
- Saving Lives

**WE WORK WITH A DIVERSE
CUSTOMER BASE.....**

ACTION AMPS (ACS) Ltd

EFFECTIVE REALISM

Action Amps (ACS) Ltd provides traumatic catastrophic simulations with effective realism by use of amputees and special effects make-up.

Utilising the services of Action Amps (ACS) Ltd will enhance your training simulation events and packages with realism, providing trainees with realistic traumatic injuries, which will ensure effective training and help take the “shock” factor out of a real LIVE situation thus SAVING lives.

Our services can be incorporated into endless training packages including:

- Road Traffic Accidents
- Health & Safety Training
- Disaster Planning
- Middle East Pre-deployment Training

HOW CAN WE HELP YOU?

AMPUTEES AND ROLE-PLAYERS

With a selection of amputees and a range of amputations, we can almost always accommodate your pre-defined training requirements, whilst enhancing the realism by introducing the shock factor of traumatic events.

Our amputees have experience in varying levels of role-play, from film and TV extras (including stunt roles) to military battlefield simulations.

SPECIAL EFFECTS MAKE-UP (SFX)

Action Amps (ACS) Ltd has its own fully-trained SFX Make-up Artists who can provide realistic simulations from minor cuts and bleeds through to catastrophic wounds, body burns, facial and head injuries.

PYROTECHNICS

Qualified Pyrotechnic Technicians are available to supply visual and noise simulation, which can be used to enhance Battlefield training, traffic accident explosions etc. The noise and smoke enhances the realism and can add valuable pressure to the trainees.
